

Website and App Localization Pack

Original commercial sample for landing pages, app screens and UX microcopy.

Document type	Original localization and UX writing sample
Use	Websites, apps, e-commerce pages and product onboarding
Commercial status	Quote-only localization work; pricing depends on screens, strings and context
Languages	Spanish, English, German, French, Portuguese, Italian, Russian, Czech, Chinese, Japanese, Hebrew and Arabic; historical samples in Latin, Ancient Greek, Classical Arabic, Sanskrit and Old Norse.

Project scenario

A small digital product needs to adapt its homepage, signup flow and help-center copy for international users. The goal is not literal translation, but a version that feels natural, clear and action-oriented in the target language.

Source and localized copy

Component	English source	Spanish localization note
Hero headline	Manage every document in one calm workspace.	Gestiona cada documento en un espacio claro y ordenado. Avoids overpromising productivity.
CTA	Start your project	Iniciar mi proyecto. Keeps action personal and direct.
Empty state	No files yet. Upload your first document to continue.	Aún no hay archivos. Sube tu primer documento para continuar.
Trust note	Your files remain private until you choose to share them.	Tus archivos se mantienen privados hasta que decidas compartirlos.
Help link	Need a reviewed translation?	¿Necesitas una traducción revisada?

Localization checklist

- Confirm product audience, market and tone before translating.
- Separate UI strings, SEO copy and legal/safety text.
- Preserve button length and mobile layout constraints.
- Flag phrases that need cultural adaptation instead of literal rendering.

Quote variables

This type of project is quoted by number of screens, source word count, context availability, SEO requirements and revision depth.
